Dixon, IL – The Illinois Department of Transportation announces today that weather permitting, construction work on I-88 from IL 78 near Lyndon to Sand Road will begin on Monday, August 14, 2017. Civil Constructors is starting the \$12.4 million project to improve the nine mile section of I-88.

Traffic will be restricted to one lane in each direction as the contractor will begin by making concrete repairs to the pavement. The project also includes milling off the existing bituminous overlay and resurfacing the roadway.

The pavement repairs and work on the bridges is scheduled to be completed by mid-November. Depending on the weather conditions this fall, it is expected that the resurfacing of the roadway will be started in the Spring of 2018.

Drivers should be alert for the lane closures and for slow moving construction vehicles entering and exiting the work areas.

Please slow down and use extreme caution while driving through all work zones.
